

Speed S +plus

DESIGNED FOR EFFICIENCY

zumex[®]
LIFE ESSENCE

Speed Pro and Speed S^{+plus}

THE MOST COMPLETE SERIES

The key factors of the Speed series are speed and capacity. With its unique juice extraction and professional service, it has consolidated its position as a key product in several different industries.

Discover the **tabletop** and **podium** models and see how they can be adapted to day to day use in large superstores and self service areas.

Objective: Get the best performance.

The 6 key factors to the success of Speed

From beginning to end, everything is taken care of to make your life easier.

20 Kg

1 Improved loading

- 20 kg capacity.
- Easy action front opening.
- Guaranteed orange rotation.
- **Drain&Clean** system, for better cleaning.

2 Easy action juice extraction unit

- Wide feeder tube, which makes it easier to put oranges into the machine.
- An easy to remove cover with extraction system **Click&Clean**.
- Peel outlet with automatic safety stop detectors.

3 Self-service!

- **2Service tap** with two modes: continuous or non-continuous, perfect service, intuitive and functional.
- Removable, easy to clean.
- Removable stainless steel bin "in just one click".

4 PulpOut system

- **Manual sweeper:** slide side-to-side and eliminate the pulp when you need to.
- **W Filter:** traditional way of removing pulp; empty-out when ready.

5 Intelligent Electronics

- The **Intelligent Touch** device can be used to programme the usage mode (automatic or professional), the language, and the number of oranges to be squeezed.
- **Waste Limit:** it is possible to programme in the load capacity so that the machine will stop automatically when the waste bucket is full.

6 Waste management

- Stainless steel podium with wheels which improves mobility and security.
- 52 L capacity waste trolley.

NEW

Speed S^{+plus}

New models for enhanced possibilities

Discover the new Speed S^{+plus} models which provide a more efficient, secure and faultless service than ever before.

The new Speed S^{+plus} has been created for cafeterias, supermarkets and hotels. It offers an improved user experience and is faster and easier to use.

Speed S^{+plus} expands the possibilities for your business. Discover the new models.

Speed S⁺plus

SQUEEZE THE MOST OUT OF YOUR SUPERMARKET

More features to satisfy high juice demands

Our daily life usually leaves us with little time to look after ourselves and eat and drink healthily.

A competitive advantage.

This is why more and more supermarkets are offering their customers freshly squeezed, high quality juice in their stores.

This is possible with the new range of Speed S⁺plus juicers.

Functional and easy to use.

Prepared then and there by the consumer, you can offer the freshest supermarket product to take away or to drink then and there.

Choose the best option for your supermarket. There's a Speed S⁺plus for every situation.

Discover the next level

We are reaching new heights with the Speed S ^{+plus}. Here are the new features which make it an extraordinary juicer.

It's now even easier to get the best juice. Perfect for **supermarket chains, hotels or self service stores** that are looking for a better level of service.

More benefits, better hygiene and easier to use, better value for you from day to day.

Triple filter

Guaranteed high quality and optimal texture juice.

New automatic PulpOut system

High performance

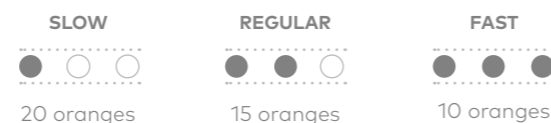

Its automatic conveyor belt which gets rid of pulp **easily, hygienically and quickly**. It saves time and means your juicer can run by itself.

You can programme the machine's usage mode, **continuous or non-continuous** which will improve your juicer's performance and the **Autoclean function** will always keep the filter clean

You choose!

Modes:

- **Continuous. Maximum autonomy.** Eliminates pulp during all of the juicing time.
- **Non-continuous. To maximize filtering time.** The number of juicing cycles can be set according to the type of pulp.

- **Autoclean function.** This will get rid of the pulp once juicing is finished. And keep the filter clean to maintain your self-service store's good image.

Quick disassemble

This will get rid of the pulp once juicing is finished. And keep the filter clean to maintain your self-service store's good image.

High precision filter maximises performance

The micro-perforated silicone pulp conveyor belt improves performance by producing more juice per orange.

Great engineering design

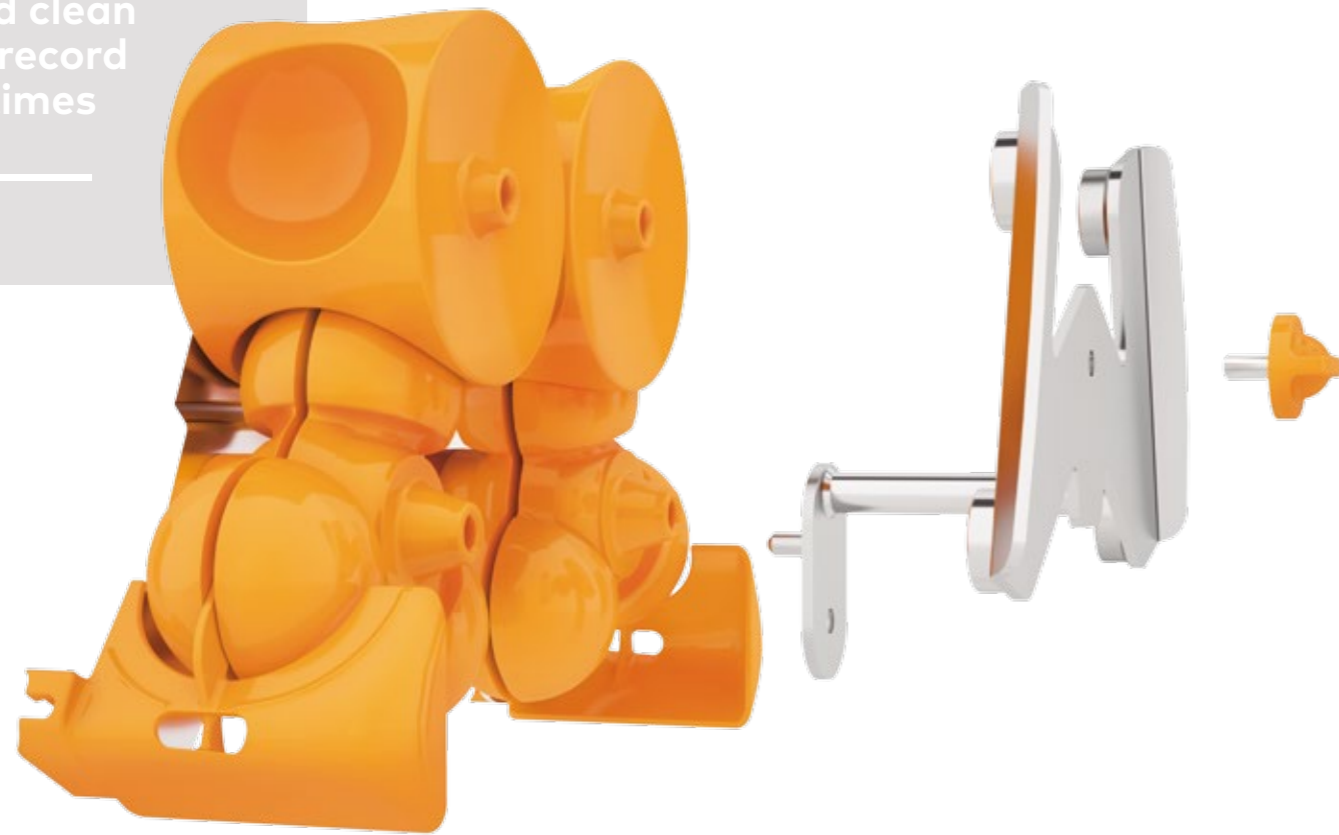

The top cover directs the juice to the centre of the belt to better remove the pulp. The side cover stops the remaining pulp from falling.

Dishwasher friendly

All components can be cleaned in the dishwasher.

times

New 1Step Extraction Kit

for those that
need a Plus

- **A Kit for the fastest**

Removing the juicing mechanism is easy and fast. Turn the central knob and remove the entire juicing mechanism in just one move.

- **New design, less pieces**

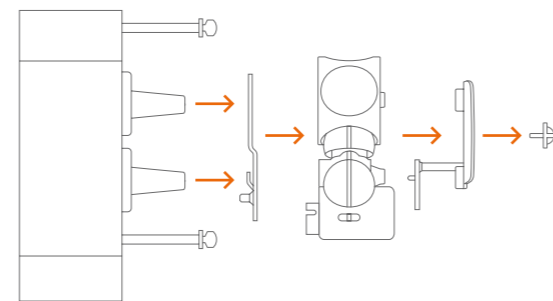

The new ergonomic W-shaped stainless steel support is designed to make things easier. It also has less parts to guarantee improved hygiene and easy cleaning.

The juice extraction process can be visualised, avoiding splashes.

- **Easy cleaning**

The mechanism can be cleaned in one piece, in a dishwasher or under the tap.

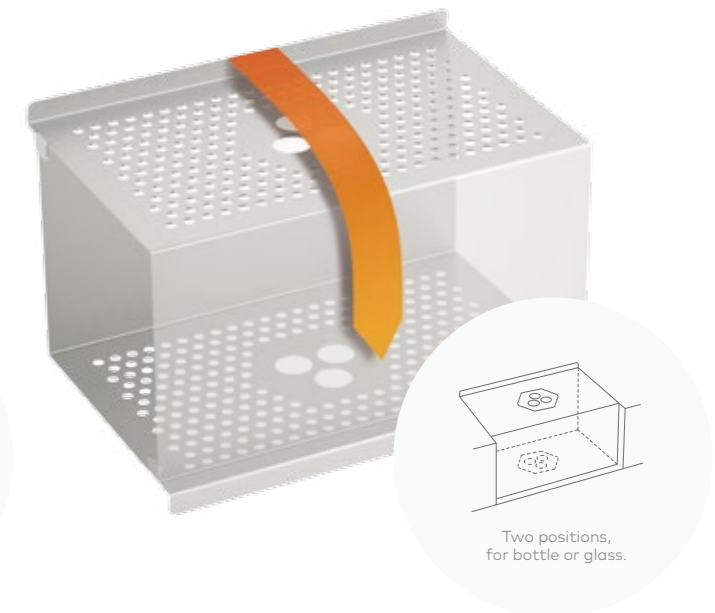

*A deep clean is recommended at least once a week.

Easy disassemble.

Drip tray with waste spout to waste bin.

Two positions, for bottle or glass.

up to
50 L
20 Kg

per compartment

New tap and tray

Easy serve

New **tap with bottle support and front tap** to serve the juice in a bottle at the push of a button.

It also has a **new 2-position drip tray** so you can offer the possibility of pouring directly into a glass.

Comes as standard with the Speed S^{+Plus} Self Service Podium.

New podium

Double capacity

The new podium has two compartments which can take up to 100 L - 40 Kg of waste. Which means it can juice up to **70 Kg / 500 oranges** without being changed.

It drains directly into the waste bin, affording easy cleaning and autonomy.

In Speed S^{+Plus} Self Service Podium model.
