Information is correct at date of printing: 10th December 2015, and may change without prior notice.
Bottom Mount ActiveCore A models listed are without an illuminated sign panel spec. AC models are with a lightbox.
*Calculations based on MEPS listed efficiency rating x TDA = TEC kWh/24hr x 0.30c x 365

Units compared are marketed as refrigerated glass door merchandisers in the Australasian market. It is mandatory for products in this category to have Minimum Energy Performance (MEPS) certification. If a product you are considering is not in the list above visit http://reg.energysrating.gov.au/comparator/product_types/37/search/ to see if it is approved for use in Australia and New Zealand.
