

FOOTPRINT PRO FILTRATION SYSTEM
FOR GAS FRYERS - 4 x 25 LITRE POTS

Frymaster's FootPrint® PRO Filtration System is designed to extend the useful life of oil, while ensuring quality fried products. It is engineered with features that allow convenient use, easier servicing and the ability to use three different filter mediums with one pan.

This unit utilises gravity to drain oil into the filter pan leaving drain lines free of residual oil.

The filter, housed beneath two or more FootPrint-ready gas fryers, filters fryers, individually, without filter movement from fryer to fryer. 25 Litres of oil can be filtered in about three minutes, while other fryers in the battery continue cooking.

FootPrint® PRO Filtration System is suitable for fryers with a maximum capacity of 25L.

STANDARD FEATURES

- 4 x MJ150 fryers. 100L total oil capacity.
- Large capacity filter pan design is light weight for easy removal
- Filter pan designed on rails to clear floor mats
- Ample cleaning space when filter pan is removed
- Space saving, Convenient, Labour Saving
- Increased diameter on oil pick-up tube prevents clogging
- Stainless steel construction
- 1/3 H.P. motor
- 1 box of 25 prepackaged applications of Filter powder
- 1 box of 25 sheets Filter paper
- Stainless steel crumb tray
- Castors
- Covers
- EZ spark ignition (batteries included)

OPTIONAL FEATURES

- Computer Controller
- External oil discharge, specify front or rear (3 pots or larger)
- Spreader cabinet
- Food warmer holding cabinet
- Flexible gas hose with quick disconnect and restraining kit
- Automatic basket lifters
