
Zumex Multifruit Commercial Centrifugal Juicer - ZU-09875

Intelligent, Efficient, Functional, Intuitive, Stylish

The perfect commercial juicer for 'Big-Time Juicers'. Designed to offer optimum performance every time. The essential commercial juicer for restaurants, cafés and juice bars that are looking to offer the authentic taste of multi-fruit juices. The Multifruit will extract the greatest amount of juice possible out of any type of fruit and vegetable. From apples, kiwi fruit or pineapples to carrots or celery.

Now with more details, more character: with **new button** and **matt finishes**, designed to stand out due to its elegance and professionalism.

Details

Its modern centrifuge system and its **efficient** filtering system allow high quality, pulp-free juice to be obtained. In addition to its state-of-the-art, elegant and modern image, Multifruit Speed Control is designed to make your life easier by saving time, work and raw material.

Perfect for juice bars, "healthy food" restaurants, pubs, cocktail bars... and for all those locations which wish to provide high-quality, tasty natural juices.

It can extract juice from apples, carrots or pineapples, as well as, cucumbers, celery or ginger...and voilà! The result is a **pulp-free high-quality juice**.
